28	Digitālā transformācija	2.2.1.2.1. Atbalsta procesu digitalizācijai komercdarbībā	0	0,0	0,0	0,0	0,0								ERAF (2021-2027)	23 471 243	23 471 243	Within the amendments proposed in the European Union Cohesion policy programme 2021-2027 1.2.2.SAM "Using the advantages of digitalisation for business development", the planned measure "Support for digitalization of processes in commercial activity" will be allocated EUR 23 471 243 euros. The amendments envisage continuing the support started within the framework of the Recovery and Resilience Mechanism for the digitization of the business activities of Latvian entrepreneurs, in addition to the total funding initially planned for the measure of 8 Meuro funding by redistributing funding in the amount of EUR 19 613 228 from measure 1.2.1.1. European Union Cohesion policy programme 2021-2027 will provide funding providing demarcation. No project will receive funding from two sources. The first project will be financed from the Recovery and Resilience Facility. After the financing of the Recovery and Resilience Mechanism has been used or the activities differ from the EU funds program from the Recovery and Resilience Mechanism program, support will be provided under EU funds within measure 1.2.2.1.		
29	Digitālā transformācija	2.2.1.3.1. Atbalsta jomas produktu un pakalpojumu izvēršana un modernizācija	21 150 000		ERAF (2021-2027)	0	0	Activity that was planned is cancelled											The planned activity is allowed in European Union Cohesion policy programme 2021-2027. SO 1.2.1. "Strengthening R&D capacity for companies". 1.2.1.1. "Support for new product development and internationalization" 2. and 3 call. RRP and Program demarcation will be ensured in time - program activities will be initiated only after RRP activities are completed.	
30	Digitālā transformācija	2.2.1.4.1. Finanšu instrumentu komercdarbības digitalizācijas nodrošināšana	0	0,0	REACT-EU	21 059 282	86 859 282	Programme for the EU funds for the 2014-2020 "Growth and employment"; SO 3.1.1.1. "Loan guarantee" (43 800 000 euros), 3.1.1.2. "Microloan loan" (7 000 000 euros), SO 1.1.5 "Support for international collaboration projects in research and innovation"; training at Barfona University (4 283 727 euros), SO 13.1.6 "Recovery measures in the economic sector - employee training (ERDF)" funding part linked to SO 1.2.2.3. (2 000 000 euros).												
31	Digitālā transformācija	2.2.1.4.1.1. Mēdiju nozaru uzņēmumu digitālās transformācijas nodrošināšana	0	0,0	ERAF (2014-2020)	65 800 000														
32	Digitālā transformācija	2.2.1.1.e. Izturīgā un sociāli atbildīga attīstības sistēmas pieeju atbalsts																		
33	Digitālā transformācija	2.2.1.1.1.1. Augsta līmeņa digitālās prasību apguves nodrošināšana	41 008 242		REACT-EU	5 000 000	40 864 012	Programme for the EU funds for the 2014-2020 "Growth and employment"; SO 1.2.2.3. "Support for ICT and technological training as well for training to facilitate the attraction of investors" (5 400 285 euros), SO 1.1.5 "Support for international collaboration projects in research and innovation"; training at Barfona University (4 283 727 euros), SO 13.1.6 "Recovery measures in the economic sector - employee training (ERDF)" funding part linked to SO 1.2.2.3. (2 000 000 euros). European Union Cohesion policy programme 2021-2027: SO 1.1.2. Developing skills for promoting smart specialisation, industrial transition and entrepreneurship (26 100 000 euros). When planning the acquisition of high-level digital skills, the demarcation will be ensured when planning measures after the end of the implementation of the investment, as well as anticipating, that the funding will be intended for substantially new or in-depth areas of applied knowledge and skills. In order to ensure demarcation with 2.3.1.1. of the Recovery Plan within the framework of the reform "Development of a sustainable and socially responsible support system for adult education", for other investments we indicate that 2.3.1.2.1. within the framework of the investment, training will be organized based on the results of the digital maturity test conducted by the ERDF and the supporting activities mentioned in the digital development road map. Within the framework of this investment, training is intended for company employees, according to the company's request. Despite the fact that the educational topics offered by ERDF also cover cyber security, high-performance computing and artificial intelligence, the content of the mentioned educational topics will not correspond to the educational content implemented within the framework of 2.3.1.1.1. within which it is planned to increase the number of specialists with high-level digital skills (DigCamp level 7.8). 2.3.1.1.1. within the scope of the investment, the target group is already existing field specialists who already have appropriate knowledge in the fields determined within the framework of the investment, and the content of the intended study modules is a strategy to promote the skills of existing specialists in the direction of excellence, therefore there are no direct demarcations with other planned activities of the Recovery Plan 2.3.1.1. e. within the framework of the reform "Development of a sustainable and socially responsible support system for adult education".												
34	Digitālā transformācija	2.2.1.2.1.1. Uzņēmumu digitālās prasību attīstība	11 000 000		ERAF (2021-2027)	8 500 000	8 500 000	SO 1.1.2. "Skills for smart specialisation, industrial transition and entrepreneurship dealing with digitalisation" (Recovery fund funding 6.5 Meuro). European Union Cohesion Policy Programme 2021-2027 funding will be available through demarcation. No project will receive a financial contribution from two sources. The first project will be funded by the RRF. Once the RRF has been used, the European Union Cohesion Policy Programme 2021-2027 will be launched.

Vākus veģināt un vākus atvērēt tīklu atvēršana	0	n/a	ERAF (2014-2020)		238 477 563	238 477 563	Reconstruction and renovation of the regional and local roads within the framework of the investment is planned in synergy with other measures, including the investments made by EU funds in the 2014-2020 planning period for the development of regional road infrastructure. Demarcation will be ensured i.e. road sections are technically and technically separable from each other, ensuring that only road sections that have not received EU funding are renovated.							
46	neveikšanās mazināšana	2.1.1.2.1. Pilsētu kopienītes stiprināšana un darbinātības veicināšana un kvalitātes atvēršana	377 296	Darības programmas Latvijas 2021.-2027.gadam 5.1.1.SAM "Veicināt teritoriālo ieviešanu sociālās, ekonomiskās un vākus attīstības un kultūras nostādņu, tīkmu un darbinātības veicināšanai" (nodarbinātības finansējums ir ERAF daļa, kas pilnā mērā ieviešana pasākumos)	ERAF (2021-2027)		1 910 215	1 910 215	The investment of the RRF Plan will be implemented in synergy with the capacity building measures for planning regions and local municipalities planned within the European Union Cohesion policy programme 2021-2027, ensuring demarcation at investment project level and taking into account different thematic focus of the content of measures, regularly exchanging information between involved employees on the training content, coordinating topics, timetable and results. 5.1.1.30. "Promoting the integrated social, economic and environmental development of local areas and cultural heritage, tourism and safety in urban functional areas" (specific funding is planned for the capacity building activities). Within this support training activities will be ensured for increasing administrative capacity of planning regions and local municipalities in the following areas: 1) business promotion and innovation development; 2) application of smart solutions; 3) integrated territorial development planning and implementation, adapting to demographic and climate change, including public outdoor development; 4) budget planning, including the use of new regional development support and financial instruments; 5) public participation in development planning and implementation, including improving basic knowledge of civil society as a resource and its contribution to development (amount of support 777 296 euro). 6.1.1.30. "Mitigating the economic, social and environmental consequences of the transition to climate neutrality in the most affected regions" (the Transition fund) support is planned to increase the knowledge and skills of regions and local municipalities' specialists to work with climate neutrality issues, which is a significant precondition for efficient and coordinated transformation of a climate neutral economy (amount of support 1 532 920 euro).							
47	neveikšanās mazināšana	2.1.1.2.1. Investīcijas uzlabotības publiskās infrastruktūras ieviešanu par to teritorijās attīstītiem reģioniem	132 327 000	Darības programmas Latvijas 2021.-2027.gadam 5.1.1.SAM "Veicināt teritoriālo ieviešanu sociālās, ekonomiskās un vākus attīstības un kultūras nostādņu, tīkmu un darbinātības veicināšanai" (nodarbinātības finansējums ir ERAF daļa, kas pilnā mērā ieviešana pasākumos)	REACT-EU	24 166 800	206 555 279	49 279 779	European Union Cohesion policy programme 2021-2027. 5.1.1.30. "Promoting the integrated social, economic and environmental development of local areas and cultural heritage, tourism and safety in urban functional areas" (specific funding is planned for the development of public business infrastructure in urban areas, measure 5.1.1.1. (ERDF) funding 131 110 000 euro). Operational programme "Growth and Employment" REACT-EU measure 11.1.1.3. "Revitalisation of territories to promote business in municipalities" (24 166 800 euro). For the smooth development of commercial public infrastructure throughout Latvia, demarcation is ensured at the level of program and projects in the planning of complementary investments, including in the stages of preparation, evaluation and implementation of the project application, measures is ensured that the same activities or costs are not financed from different sources. A different emphasis is planned at the program level when demarcating the scope of support, investments under measure 5.1.1.1 of the Programme 2021-2027 for the development of public commercial infrastructure are intended for smaller local projects within the region (the maximum financing of the ERDF is planned to be 5 million euro), where all municipalities will be able to compete within the region, taking into account the needs of local business for environmental development and creating job opportunities as close as possible to residents. On the other hand, the investments planned under measure 6.1.1.3 of the Programme 2021-2027 (JTF funding 49 279 779 euro) for the development of business support infrastructure will focus on the use of renewable energy resources in certain regions of Latvia, which will be included in the Territorial Just Transition Plan, thus promoting the transition to a climate-neutral economy and developing "green" industrial zones that consume renewable energy sources.							
48	neveikšanās mazināšana	2.1.1.4.1. Finanšu izstrādāšana izveidēt zemas tēriņģu būvniecību	0	n/a	n/a		n/a	n/a								
49	neveikšanās mazināšana	2.1.1.5.1. Iegūšanas izstrādāšana infrastruktūras pilnveidē un aprūpēšana	0	Darības programmas Latvijas 2021.-2027.gadam 4.2.1.SAM "Izstrādāt piekļuves iekārtas un kvalitatīvu pakalpojumu ieviešanu, nodrošinot uzlabotību un mērķaudzīti, attīstot infrastruktūru, tostarp atbilstoši tehnoloģijām, tehniskās uzlabotības un mācību kopju pilnveicināšanu finansējums ietīstības veidā (ar profesionālo ieviešanu) nodrošinot (t.sk. specializāciju veidā kompleksā programmas izstrādāšanā, mērķaudzīti laboratorijās, robotikas) pilnveicināšanā) ieviešanu un ieviešanu pilnā mērā ESF fonda 2021-27 investīcijas noteik pilnā mērā ieviešanu infrastruktūras pilnveidē.	ERAF (2021-2027)		20 998 905	20 998 905	European Union Cohesion policy programme 2021-2027 SO 4.2.1. "Improving equal access to inclusive and quality services in education, training and lifelong learning by developing accessible infrastructure, including by promoting excellence in distance and other education and training measure 4.2.1.5 "Qualitative implementation of the improved general education content at the basic and secondary education level" (funding for the provision of general education institutions for the deployment of advanced general education content (including dedicated sets of devices for programming, multimedia laboratories, robotics). Investment by EU funds 2021-2027 is not planned to improve the infrastructure of educational establishments or for construction.							
50	neveikšanās mazināšana	2.1.1.6.1. Pilsētu funkcionālo tīkmu izstrādāšana un pakalpojumu uzturēšana nepieciešamo veģinātību transporta infrastruktūras ieviešanai	29 031 336	Neatbilstoši nodarbinātības veicināšanai (nodarbinātības finansējums ir ERAF daļa, kas pilnā mērā ieviešana pasākumos)	Taisnīgās pārkārtošanās fonda (2021-2027)		21 179 311	21 179 311	Just Transition fund SO 6.1.1. "Mitigating the economic, social and environmental consequences of the transition to climate neutrality in the most affected regions" specifically for the measure for zero-emission vehicle use in municipalities (measure 6.1.1.6). TFF is a part of Programme 2021-2027. In the implementation of the investment, mutual coordination with the European Union Cohesion Policy Programme 2021-2027 is essential, evaluating the content of the investment and mutual synergy in order to prevent possible overlapping of investments, preventing the risk of double funding in the case of mutually complementary investments. The risk of double funding will be eliminated and demarcation will be ensured at program and project level, ensuring that one and the same supported activities and eligible costs are not financed twice. Considering that both TFF and the zero-emission mobility measure and RRF 3.1.1.6.4. investment support the purchase of electric buses, project applicants will have to submit a document (acknowledgement) certifying that one and the same supported activities and eligible costs will not be financed from both RRF and TFF.

Within the framework of measure 1.3.1.2 "Innovation laboratory for using the advantages of digitalization", innovation laboratory services will be provided for the intended digital tools and IT systems that are planned to be supported within the framework of the European Union Cohesion policy programme 2021-2027, while investments 6.3.1.1.1. innovation laboratory services are planned within the scope of the current and problematic issues of public administration, in addition within investment 6.3.1.1.1. trainings will be provided in connection with the necessary knowledge on ensuring the operation of innovation laboratories.												
87	Ikuma vara	6.2.1.2.1. Nvaldības organizāciju izveidošana un drošības pārveidošanas stiprināšana un sadarbības izstrāde uzraudzībā	1 740 000	Drošības programmas Latvija 2021.-2027.gadam 4.3.4. "SAM" "Iekšējās drošības izstrādājuma izstrādāšanai, lai veicinātu vienlīdzīgu iespēju un aktīvu iedzīvotāju, liā ar valsts nodarbinātību"	ERAF (2021-2027)	1 479 000	1 479 000	European Union Cohesion policy programme for 2021-2027 measure 4.3.4.5 "Support for the growth of civil society organizations by strengthening participation in public administration decision-making processes". 6.3.1.1.4.1. the investment supports the strengthening of the capacity of NGOs in the field of social security representation of the interests of the least protected groups of society and in the field of public interest monitoring of foreign investments and the use of state budget funding, while 4.3.4.5. the event addresses the weak development issue of civil dialogue as such, without specifying a specific field or sector. 4.3.4.5. the measure should be considered primarily as a public administration tool for stimulating the development of civil dialogue at all administrative levels of governance, involving the widest possible number of NGO participants in the planning and implementation of the policy of sectoral ministries, municipalities and planning regions. While 6.3.1.1.4.1. investment focuses on strengthening NGO representation in a narrow and poorly represented area in the NGO sector - social security, stimulating the formation of new NGOs and the establishment of partnerships in the NGO sector.												
88	Ikuma vara	6.4.1.2. Publiskās izpildes likuma izstrāde																		
89	Ikuma vara	6.4.2.2. Nevaldības organizāciju pārveidošana																		
90	Ikuma vara	6.4.3.2. Profesionāliskās izstrādāšanas izstrāde un īstenošana							ERAF (2014-2020)	8262,28	8262,28	Taking into account that 6.4.3. reform does not contain funding from RRF, to achieve goals of the reform, specifically - to develop single training program and requirements for procurement commission in high scale and centralized procurement procedures, Procurement Monitoring Bureau (PMB) used additional resources. The content of the basic level of the procurement training program (guidelines, layout, tests, exams) was partially (1/3 of contract price) funded from the State Chancellor's ERDF technical support project No. 11.1.1.018/TP/07 "Support to the State Chancellor in the administration of European Union funds".	ERAF (2014-2020)	8262,28	8262,28					
90	Ikuma vara								ERAF (2014-2020)	50985,88	50985,88	Taking into account that 6.4.3. reform does not contain funding from RRF, to achieve goals of the reform, specifically - to develop single training program and requirements for procurement commission in high scale and centralized procurement procedures, Procurement Monitoring Bureau (PMB) used additional resources. 1) The e-study module added to the procurement training program "Conflict of interest and prohibited agreements in public procurement" was partially funded from the ISF project "Professional development of human resources of the state administration in the field of prevention of corruption and reduction of the shadow economy" (No. 3.4.2.0/15/40025). Must take into account that this e-learning module was not intended for Procurement training programme when it was developed and is independent study programme, which is not crucial for existence of Procurement training programme or achieving milestone - this module was added to training programme because it contains important topic with the aim of supplementing the content of Procurement training programme and making it more interactive; 2) Because of limited timeframe and shortage of human resources of contractor, in the Procurement training programme, the content of the guidelines and text of 3 study modules was developed by 3 employees of the PMB's Control Department, from 01.06.2022. until 30.09.2022, receiving a 10% bonus from the salary from EU funding - Project No. 10.1.3.0/18/TP/002 "ESF technical support to the Bureau in the administration and monitoring of European Union funds"; 3) Increased qualification requirements for the procurement commission in high scale and centralized procurement and concept (frame) of Procurement training programme were developed on the basis and added to already developed State administration development matrix (methodology/competence matrix) which was partially funded from ISF project No. 3.4.2.0/15/4001 "Professional development of human resources of the state administration in the development of better regulation in the field of support implemented by small and medium-sized merchants".	ISF (2014-2020)	50985,88	50985,88
